### TITLE 7—AGRICULTURE AGRICULTURAL ADJUSTMENT ADMINISTRATION

#### DETERMINATION OF FARMING PRACTICES TO BE CARRIED OUT ON FARMS IN CALI- FORNIA IN CONNECTION WITH THE PRO- DUCTION OF SUGAR BEETS DURING THE CROP YEAR 1939

Whereas, Section 301 of the Sugar Act of 1937 authorizes the Secretary of Agriculture to make payments under specified conditions with respect to sugar or liquid sugar commercially recoverable from the sugar beets or sugarcane grown on a farm for the extraction of sugar or liquid sugar, and

Whereas, the condition with respect to farming practices, as stated in Section 301 (e) of the said act, is as follows:

"That there shall have been carried out on the farm such farming practices in connection with the production of sugar beets and sugarcane during the year in which the crop was harvested with respect to which a payment is applied for, as the Secretary may determine, pursuant to this subsection, for preserving and improving fertility of the soil and for preventing soil erosion, such practices to be consistent with the reasonable standards of the farming community in which the farm is situated."

Now, therefore, I, H. A. Wallace, Secretary of Agriculture, do hereby determine that the conditions prescribed in Section 301 (e) of the Sugar Act of 1937 shall be deemed to have been fulfilled with respect to the production of the 1939 crop of sugar beets on any farm if there is carried out, during the crop year 1939, on land on the farm which is adapted to the production of sugar beets, not less than one acre of soil-conserving practices for each acre planted to sugar beets: *Provided, however*, That one-half acre of soil-conserving practices may be carried out for each acre planted to sugar beets on land which has not produced sugar beets since 1935 if a perennial le-

gume was produced thereon in 1936 or if any legumes were produced thereon in 1937 or 1938, and three-fourths acre of soil-conserving practices may be carried out for each acre planted to sugar beets on land which has not grown sugar beets since 1936 if legumes were produced thereon in 1937 or 1938; and *Provided further*, That not in excess of 75 percent of the foregoing requirements in connection with rented acreage which would otherwise be part of another farm may consist of practices carried out on such farm in excess of any practices required thereon.

For the purposes of this determination:

(1) The term "crop year" means the calendar year, except where the grower requests that the crop year be the twelve-month period beginning 30 days prior to the planting date of sugar beets for the farm, in which case the crop year shall be such twelve-month period, if approval is given by the County Committee.

(2) Each of the following shall be deemed to be one acre of soil-conserving practices:

(a) Maintaining until after July 1, 1939, one acre of a protective covering of adapted perennial or biennial legumes, adapted perennial grasses or mixtures of such legumes and grasses; or

(b) Seeding during the crop year 1939 one-half acre of land to adapted perennial or biennial legumes, adapted perennial grasses, or mixtures of such legumes and grasses; or

(c) Seeding and maintaining until after December 31, 1939, one acre of an adapted cover crop or plowing under during the crop year 1939 one acre of a good stand and a good growth of an adapted green manure crop; or

(d) Applying during the crop year 1939 eight short tons of animal manure or the amount of manure normally produced in one year by any of the following: two head of cattle (of more than one year of age), two horses, two mules, four calves, four colts, ten sheep, or ten goats; or

(e) Applying during the crop year 1939, to land planted to sugar beets, 75 pounds

#### DETERMINATION OF ELIGIBILITY FOR PAYMENT WITH RESPECT TO ABANDONMENT AND CROP DEFICIENCY FOR FARMS IN THE DOMESTIC BEET SUGAR AREA

Pursuant to the provisions of Section 303 of the Sugar Act of 1937, I, H. A. Wallace, Secretary of Agriculture, hereby determine:

1. That the County Agricultural Conservation Committee for each county in which sugar beets are planted for harvest shall ascertain whether the actual yield of commercially recoverable sugar from the acreage planted to sugar beets in any year on 10 per centum or more of all the farms on which sugar beets were planted for harvest in such year in the county, or any local producing area, as defined herein, was less than 80 per centum of the respective normal yields of commercially recoverable sugar because of drought, flood, storm, freeze, disease, or insects. A county or local producing area in which the actual yields on 10 per centum or more of the farms on which sugar beets were planted for harvest in any year are less than 80 per cent of the respective normal yields shall be designated as an "acreage abandonment and crop deficiency area."

2. That the County Agricultural Conservation Committee shall approve for abandonment and deficiency payments any farm in an acreage abandonment and crop deficiency area on which there was abandonment of planted sugar beet acreage or on which the actual yield of commercially recoverable sugar is less than 80 per centum of the normal yield of the harvested sugar beet acreage, provided (a) such acreage abandonment or crop deficiency was directly due to drought, flood, storm, freeze, disease, or insects, (b) the acres that were abandoned or the acres with respect to which there was a crop deficiency were suitable for the protection of sugar beets and were cared for, up to the time of harvest or abandonment, as the case may be, in a manner which could have been expected, under average conditions, to produce a

normal crop of sugar beets, and (c) the farm has otherwise met the conditions of Title III of the said act. Such approval on the application for payment by a member of the County Agricultural Conservation Committee, on behalf of such committee, shall constitute determination that such farm is eligible for abandonment and deficiency payments.

3. That a "local producing area," for the purpose of paragraph one above, shall be all contiguous farms in the county which are found by the County Agricultural Conservation Committee to be similar with respect to types of soil, or with respect to topography: *Provided, however*, That farms separated from other farms by any natural barrier (such as mountains) or large area of land shall not be included within the same local producing area.

IN THE MATTER OF MILLARD H. BARD 310  
OLSON BUILDING LOCKPORT, NEW YORK

MEMORANDUM OPINION AND ORDER SUSPENDING REGISTRATION

This is a proceeding pursuant to Section 15 (b) of the Securities Exchange Act of 1934, as amended, to determine whether the registration of Millard H. Bard as a broker and dealer, effective January 1, 1936, should be revoked or suspended.

On July 8, 1938, at a hearing held pursuant to the Commission's order of May 24, 1938, at New York, New York, the registrant failed to appear personally or by counsel. Notice of the hearing had been sent to the registrant at two business addresses and his residence by registered mail on June 25, 1938, but had not actually been received by him because of his removal from those addresses. The trial examiner filed an advisory report in which he found that the registrant on December 3, 1937, had been permanently enjoined from engaging in the securities business in the State of New York and that the registrant had

failed to apprise the Commission either that he had removed his office and residence from the places named in the application for registration or of the injunction mentioned above. On an independent review of the record we adopt the trial examiner's findings as accurate and further find that the registrant's failure to inform the Commission of the injunction and of the change of address through a supplement to the application for registration filed within 10 days after the occurrence of those events constituted a wilful violation of Rule X-15B-2 (referred to as Rule MB2 in the order for hearing but renumbered on October 1, 1938) of the Rules and Regulations under the Securities Exchange Act of 1934.

The sole remaining question is the effect of the failure to serve notice personally on the registrant. We follow our previous decisions in holding that, in the absence of personal service or service by registered mail based on previous consent to such service, we cannot order revocation. However, the registrant's registration should be temporarily suspended pending final disposition of the question of permanent revocation if and when the registrant comes in to be heard.

*It is therefore ordered*, Pursuant to Section 15 (b) of the Securities Exchange Act of 1934, as amended, that the registration of Millard H. Bard as a broker and dealer be and is hereby suspended pending final determination whether such registration shall be revoked.

By the Commission.

*Important.*—Although the apportioned classified civil service is by law located only in Washington, D. C., it nevertheless includes only about half of the Federal Civilian positions in the District of Columbia. Positions in local post offices, customs districts, and other field services outside of the District of Columbia which are subject to the Civil Service Act are filled almost wholly by persons who are

local residents of the general community in which the vacancies exist. It should be noted and understood that so long as a person occupies, by original appointment, a position in the apportioned service, the charge for his appointment continues to run against his State of original residence. Certifications of eligibles are first made from States which are in arrears.
